year accomplishments. A morning presentation will be followed by an opportunity for participants to travel to project sites where forest health issues and improvements will be discussed. The meeting will begin at 9:30 a.m. at the Oconee District Workcenter Conference Room located at 1199 Madison Road in Eatonton, GA. The OFH-WHIP is an adaptive and ecological strategy to restore the forest to healthy conditions. The purpose of the project is to improve forest health, forest diversity, and habitat for wildlife including the red-cockaded woodpecker, a federally listed endangered species. Project objectives include thinning overgrown forest stands, replacing certain tree species with other species more suitable to certain areas of the forest, and controlling invasive species. Actions may include harvesting timber, followed up with control of undesirable vegetation re-growth using hand tools, herbicides, and prescribed burning. Actions will be guided by a nationally recognized Ecological Classification System, which considers soil conditions, hydrology, and topography of the landscape. Please RSVP by November 27, 2022, as limited seats are available for the meeting session to: Oconee Ranger District, attn.: 2023 OFH-WHIP, 1199 Madison Road, Eatonton, GA 31024 or by phone at (706) 485-7110. In addition, please indicate in the RSVP if you will be participating in the field visit session. If RSVP is through email, please direct to SM.FS.ofhwhip@usda.gov, with the subject heading of: RSVP for 2023 OFH-WHIP Annual Meeting.
